PROFESSIONAL SUMMARY

Artificial Intelligence & Machine Learning undergraduate with hands-on experience building AI applications using machine learning, natural language processing, and computer vision techniques. Experienced in developing systems for sentiment analysis, cybersecurity threat detection, and crowd monitoring using Python and modern ML frameworks. Seeking opportunities as an AI / Machine Learning Intern.

TECHNICAL SKILLS

Programming: Python
Machine Learning: Scikit-learn, Random Forest, Gradient Boosting, XGBoost
NLP: Sentiment Analysis, Text Preprocessing, Tokenization, Stopword Removal, Vectorization
Deep Learning: BERT, Transformers, PyTorch
Computer Vision: OpenCV
Backend: Flask
Data Processing: Pandas, NumPy, JSON
Databases: MySQL
Tools: Git, GitHub, Docker (Basics), Linux (Basics)

PROJECTS

Sentiment Analysis System

Technologies: Python, Scikit-learn, NLP

- Developed a machine learning model to classify text into positive and negative sentiment.
- Implemented preprocessing techniques such as tokenization, stopword removal, and vectorization.
- Trained classification models using Scikit-learn for sentiment prediction.

AI Digital Twin Cyber-Attack Detection System

Technologies: Python, Flask, Scikit-learn, XGBoost, BERT, PyTorch, MySQL

- Built an AI-powered platform to simulate and detect cybersecurity threats.
- Implemented ML models for detecting SQL injection and XSS attacks.
- Applied BERT-based NLP models to analyze system logs and detect attack patterns.

CrowdGuardAI – Crowd Monitoring System

Technologies: Python, OpenCV, Computer Vision

- Developed an AI-based crowd monitoring system using computer vision techniques.
- Implemented OpenCV to analyze video frames and detect crowd density.
- Designed the system to support crowd management and safety monitoring.

EDUCATION

Bachelor of Engineering – Artificial Intelligence & Machine Learning

Mahindra Institute of Technology (Autonomous)
2024 – 2028 | **CGPA: 7.02**

ACHIEVEMENTS

- Participant – iTech Summit 24-Hour Hackathon, PSG Institute of Technology and Applied Research
- Participant – 24-Hour Protothon, Hindustan Institute of Technology and Science
- Python Programming Certification (86%) – Python Exam WK-1, Feb 2026
